Teaching - Comprehensive

Report of Education Innovations

Year/s	Innovation	Institution
2021-Present	Adjunct Faculty and creative influence for the Doctor of Medical Science (DMSc) Survival Medicine Course at Southern Illinois University	Southern Illinois University
1996-Present	<p>Platform and remote teachings on published Wilderness Medicine and Survival concepts (manmade and natural disasters). Develop entire program and oversee budget, faculty, and curriculum. Author of six published top selling books on wilderness survival and medicine.</p> <p><i>Intermittent Presentations (United States and Abroad)</i></p> <ul style="list-style-type: none"> • Greg Davenport’s Three Steps to Surviving Anything • Disaster Response and Emergency Management • Austere and Remote Medical Care • Stress Abatement in Crisis • Healthcare in Austere and Remote Environments • Healthcare in a Comat Environment • Mass Casualty Operations • Tactical Field Care and Evacuation • Tactical Evacuation • Tactical Trauma Care • Global Health and Humanitarian Service • Village Stability Operations • Overcoming Pre-Conceived Limits • High Stress Leadership • Teamwork in High Stress Environments • Surviving PTSD • And more in the genre this genre <p>* See 'Other Certificates and Training'</p>	Greg Davenport (AKA JGD), LLC
2021-2023	Developed the Emergency Management and Global Health concentration within the Doctor of Medical Science to include concept, course creation, outcomes and goals for the concentration, course outcomes and objectives, assessment processes and University review. Led the EMGH and teach most of its courses. Supervise adjunct faculty who help teach in the Disaster Medicine course. There are 10 unique courses assigned to this concentration covering (1) Disaster Management - three unique courses, (2) Global Health - three unique courses, and the (3) concentration specific practicum - four unique courses. Finally, established a summative weeklong intensive related to the Emergency Management and Global Health track.	University of Lynchburg
2020-2023	Created the Disaster Medicine Certificate which consisted of (1) Disaster Medicine, (2) Wilderness Survival Medicine, and (3) Principles of Emergency and Disaster Management. Taught (1) PA930, (2) PA931, and (3) PA932.	University of Lynchburg
2017-2023	Creative influence, helping develop the Doctor of Medical Science (DMSc) and Global and Disaster Medicine courses. Taught (1) PA910 Organizational Behavior and Leadership, (2) PA930 Disaster Medicine, and (3) PA940 Global Health.	University of Lynchburg

2018-2021	<p>Developed a robust problem-based PA Medicine program in the state of Oregon – from concept through first cohort matriculation. Responsibilities include program creation which involved successful regional (NWCOC) and professional accreditation (ARC-PA), graduate outcomes, curriculum development, and program policies. Additional responsibilities include managing an annual budget of over 3.0 million dollars and supervising a minimum of nine faculty and four staff members associated with the Graduate School of Medical Science. Finally, developed a robust service centered (humanitarian) curriculum that includes deployments to multiple medically underserved populations and medically underserved areas. Served as the PA program director and Chair of this Program</p>	George Fox University
2019-2021	<p>Developing and coordinating the Doctor of Medical Science (DMSc) academic program at George Fox University focused on humanitarian service. Responsibilities and duties include (but are not limited to) organization, administration, fiscal management, continuous review and analysis, planning, development, and participation in regional accreditation.</p>	George Fox University
2019-2021	<p>Creative influence in support of a George Fox ‘college of health science’ presence in Roseburg Oregon (aimed at meeting the needs of the underserved populations and areas throughout Oregon state).</p>	George Fox University
2014-2018	<p>Developed a robust problem-based PA Medicine program in the state of South Carolina – from concept through first cohort matriculation. Responsibilities include program creation which involved successful regional (SACSCOC) and professional accreditation (ARC-PA), graduate outcomes, curriculum development, and program policies. Additional responsibilities include managing an annual budget of over 3.0 million dollars and supervising a minimum of nine faculty and four staff members associated with the Graduate School of Health Sciences. Projects included a joint venture with a major hospital network, creating a doctorate fellowship for medical providers (Doctor of Medical Science). Finally, developed a robust service centered (humanitarian) curriculum that includes deployments to multiple medically underserved populations and medically underserved areas. Served as the PA program director and Dean for the Graduate School of Health Science.</p>	North Greenville University
2012-2014	<p>Developed a robust problem-based PA Medicine program in the state of North Carolina – from concept through first cohort matriculation. Responsibilities include program creation which involved successful regional (SACSCOC) and professional accreditation (ARC-PA), graduate outcomes, curriculum development, and program policies. Additional responsibilities include managing an annual budget of over 2.5 million dollars and supervising a minimum of nine faculty and four staff members associated with the Graduate School of Health Sciences. Projects included a joint venture with a major hospital network, creating a doctorate fellowship for medical providers (Doctor of Medical Science). Finally, developed a robust service centered curriculum that includes deployments to multiple medically underserved populations and medically underserved areas. Served as the PA program director and Dean for the Graduate School of PA Medicine.</p>	Gardner-Webb University
